pairing method

App Method

There are two pairing methods for pairing with the receiver and the wireless kinetic switch

- Ordinary pairing
- Directional pairing.

Physical button Mode

1 - Press the button for 3 seconds, the light will enter a slow flashing state (1 flash in 1 second),

2- the receiver enters the status of "waiting for pairing".

3- At this time, press the button of the wireless switch that needs to be paired once, and the light is off, it means that the pairing is completed.

Note: - After the pairing is completed, long press button to cycle dimming.

- If keep pressing the button, the brightness of the light will cycle from the darkest to the brightest for two cycles.

- it will stop when the brightness is maximum.

4- Long press for circular dimming, if the time interval between two long presses for dimming is less than 1 second, the dimming direction (brighter or darker) will be reversed

How to install
